The Real Laser Lord

Major Leaguer

The First Step

Coach Palmer's Pride

ROADMAP

Stage 1: The Tutorial/The Basics

The very first thing you should do when starting this game is doing the tutorial. It will lay down all of the basics and mechanics of the game. It is extremely simple if you pay attention and will only take you a couple of minutes.

Coach Palmer's Pride
Complete the Tutorial

Stage 2: Class-Based Trophies

After completing the tutorial, you are ready to go out and play the game. The first trophies you should tackle are the class-based trophies. These require you to play a class in a match and perform a task using that class's special ability. Much of these trophies require a lot of luck if you are playing with randoms or AI, which is why I recommend boosting. Gather 5 friends together to get **Smash** and **Shock** out of the way. After that, you can do the rest with 3 other people.

2-4-1 is map specific, but can be done in this stage, or any stage that proceeds this.

Making Waves
Level-up for the first time

2-4-1
Eliminate 2 opponents with a single expanding Laser ...

Smash
Hit 3 or more opponents in a single Smash ability use...

Ghost
Traverse 4 or more opposing Lasers in a single Ghost...

Thief
Steal 4 or more Laser nodes in a single Thief ability u...

Snipe
Teleslice 2 or more opponents in a single Snipe abilit...

Shock
Shock 3 or more opponents in a single Shock ability u...

Blade
Slice 2 or more opponents in a single Blade ability us...

TIPS & STRATEGIES

Currently, the game has a very small player base. You'll be facing against AI more often than real players, and when you do face against other players, they'll either be really good at the game or

beginners. Besides that, the trophies for the game require many hours of grinding. Many of the tasks for Mastery ranks are very specific/long, that you will barely scratch the surface for them in legitimate games.

Due to this, I highly recommend boosting and following the directions listed in the stages.

The game is pretty straightforward but if you are ever confused on a trophy, you can simply scroll down and read all the info related to that trophy. If you are confused of a game mechanic, then you can look in The Playbook on the main menu.

Major Leaguer
Win 50 matches (Online Play)

2.32%
ULTRA RARE

ONLINE REQUIRED MULTIPLAYER ONLY GRIND

This trophy is achieved when you win any kind of match during online play with any kind of class, 50 times. You win a match by winning 2 rounds in the 3 possible rounds in a match. Do your best to eliminate the opponent by collecting nodes, power-ups and using your special ability.

This trophy is boostable. Team up with a friend and have another pair of friends team up, then search for a doubles game in a unpopulated region. You change the matchmaking region by going into the options menu (Press ) and selecting "Matchmaking." Then you can choose which server you wish to play on, so choose one that would look unpopulated, like Europe or South-East Asia (Or any other foreign region, it is your preference). **Make sure both teams are searching in the same region.** The teams will not pair up otherwise.

Once both pairs are matched, take turns on who is winning. The losing team will constantly run into the winning team's lasers and die. The winning team just has to activate one node each game for the losers to die. After each match and during the podium, hit  to rematch against the same team. Rinse & repeat.

Winning your first game will unlock  **The First Step**. Repeat the process above 49 more times till you earn this.

I recommend not focusing on this, since many of the Mastery tasks for  All-Rounder and  First Class already require you to win points and matches, so doing those will make this trophy pop naturally.

This will most likely be the first trophy you will unlock. The tutorial is located on the main menu when you first log in to the game. Scroll down and select it and follow all of the steps in it. It should take about a few min to get through them all.

(Add image of the main menu, with the tutorial highlighted)
